

Infinte hell

There's voices in my head
They torture my soul
Anguish and depression
They're flooding my world

I wanna know... I wanna feel
Believe in myself again
I wanna stop this pain in my heart
That is drifting me slowly

I need to find what is killing me
I need to feel I'm alive and reborn

(II)

I feel the eneny inside
My life has turned into a real
Infinte hell...

Of fear... infite hell of tears
This anguish is killing my soul
Infinite hell is here...
and in this hell is where I belong

There're people around me
They just want to help
They say I've got everything
But the just can't see

My enemy's inside myself
I just wanna die my friend
A blur in my mind, a pain in my heart
I just want the end

I need to find what is killing me
I need to feel I'm alive and reborn

(II)

I feel the enemy inside
My life has turned into a real
Infinite hell...

Of fear... infinite hell of tears
This anguish is killing my soul
Infinite hell is here...
and in this hell is where I belong
