

Endernity

Welcome my friend

You're finally here

It's time to forget about real life

Forget your mistakes

Forget what is wrong

Endernity is where you belong

Endernity...

This is your place in the universe

Endernity

Is far beyond heaven and hell

So join us my friend

You are not alone

Standing together we will change the world

And now raise your voice

Let's sing it out loud

Endernity is where we belong

Endernity...

This is your place in the universe

Endernity

Is far beyond heaven and hell!!!

(Chorus)---

We see you

Welcome to our world!

We feel you

Here's the place where you belong

From here to Endernity!

Is the place where we belong

Endernity

Is the place that we call home
