

Stranger

I'm feeling like a stranger
Surrounded by people I don't know anymore
An overwhelming feeling
Trying to find my way home
Don't even know my name now
Are you a stranger or my closest friend?
You ask me to remember
I'm only able to forget

Tell me who I am
I'm going insane
Stranger to myself

Tell me who you are
Do you know me well?
I feel so afraid

I don't even remember my face
Only this mirror can say who I am

Unable to remember
Nothing comes to mind
All gone memories

You might be my brother
My sister or a friend
Nothing in my brain

Overwhelming feeling

Lonely and aghast

Lost in misery

Can't recall my past

Can't recall my name

Stranger to myself

I'm feeling like a stranger

Surrounded by people I don't know anymore

An overwhelming feeling

Trying to find my way home

Don't even know my name now

Are you a stranger or my closest friend?

You ask me to remember

I'm only able to forget

I'm a stranger, a stranger

I don't even know my name

I'm stranger, a stranger

A stranger to myself
